

ARMoured VEHICLE MOBILITY SOLUTIONS

HEAVY DUTY ALLOY RIMS RUNFLATS & TYRES

The higher GVW of armoured vehicles along with the unforgiving terrain in which these vehicles operate necessitates the fitment of heavy-duty wheel rims with increased strength and load rating.

Key Features

- Discrete Premium OE appearance
- TUV Tested & Certified
- 1,600 Kgs load rating
- Enhanced vehicle stability
- Accommodates all brake conversions
- Available for all popular platforms

Runflats

- MSW offer dynamic runlets in all rim sizes.
- Antiballistic composite material
- 2 or 3 segment option
- 90 Km/hr escape speed
- Upto 100 Km range

Tyres

MSW supply a range of heavy load rating tyres to suit the specific requirements of armoured vehicles.
